# Talk About It

When have you felt truly seen and heard in a conversation? What did that experience teach you about listening and responding to another person, especially someone in pain?

Share about your race and/or ethnic culture. What do you cherish about your experience growing up in your culture? What would you wish to change about your experience?

What does racial reconciliation look like in your own relationships? In the Church? How might God be calling you to promote and pursue healing in your areas of influence?

How has your family of origin informed your view of people of a different race or ethnicity? What prejudices, whether implicit or explicit, did you learn from your family?

At the Last Supper, Jesus prayed passionately for unity. How have you seen unity expressed through racial differences?

Jesus taught that the two greatest commandments were to love God and love our neighbor. How do we do both with more fervor? Is there a concrete example in your life you can work on?

How have you seen or experienced the sin of racism?

How will you commit to pray for racial justice, reconciliation, and unity?
